

GeoNet | GNSS

The project (Project Code: KMP6-0071139) was implemented in the framework of the Action «Investment Plans of Innovation» of the Program «Central Macedonia», PARD 2021-2027», that is co-funded by the European Union and Greece”.

The objective of the project titled “Generation and strengthening of network differential positioning services through continuously operating reference stations for land-based and airborne applications”, with the acronym GEONETGNSS, is the development of a new network of permanent GNSS reference stations, GeoNetGNSS, designed to meet the demand for highly accurate spatial positioning. This network addresses the modern needs of commercial and professional applications, as well as decision-making centers.

The project’s budget amounts to 396.656,00€ and the public expenditure to 354.962,80€.
